

App. No. 09/699,757

Response to Office Action of April 4, 2005

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1 – 7 (canceled)

Claim 8 (original): A coordinate position input apparatus comprising:

a touch panel for outputting a coordinate data of a middle point when two points are simultaneously touched;

storage means for retaining coordinate position of the two points detected previously;

detection means for detecting a coordinate position of a current middle point; and

calculation means for calculating a coordinate of one of the two touch points assumed to be a moving point by subtracting a coordinate position of a previous fixed point from a current middle point coordinate multiplied by 2.

Claim 9 (original): The coordinate input apparatus as claimed in Claim 8, wherein when a second point is touched while a first point is touched, the touch point of the second point is calculated according to a current middle point coordinate position and a previous first point touch position coordinate position.

Claims 10-17 (canceled)
